

Any time your hands are off the wheel, your eyes are off the road or your mind is not on driving, you are distracted. It only takes a fraction of a second for death due to distraction. Get a Grip™ is a constant reminder of safe driving. Apply it, live by it.

GET A GRIP  
Safe Driving

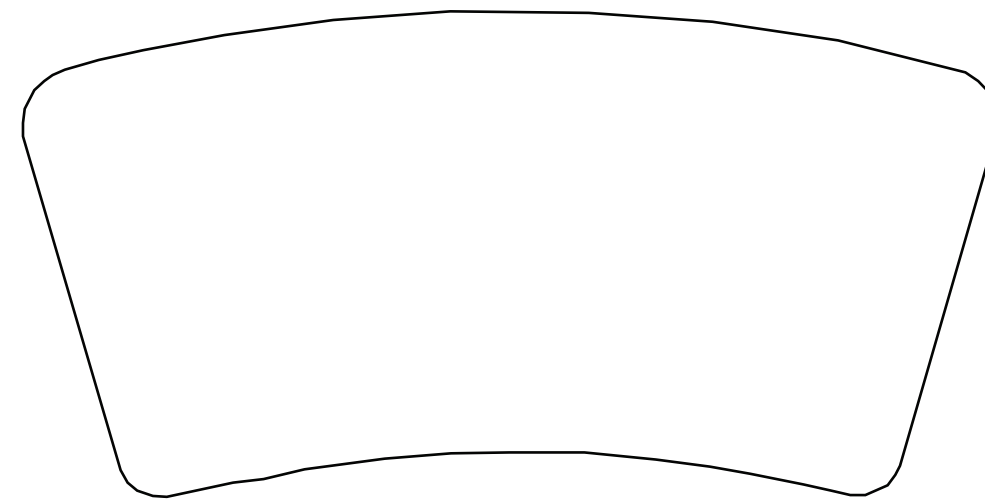

- Select a place to apply a grip. The smoother the area, the better.
- If applying two, place them as close to 9 and 3 o'clock as possible.
- If using one, try 12 o'clock position on wheel.
- Be sure that area is clean. Wipe with damp cloth before applying.
- Remove tape covering to apply to wheel.
- Center printed area around outside edge of wheel and smooth.
- Run your hand over the grip several times to insure adhesion.

If at any time this product comes loose and can no longer be secure, immediately remove.  
Made of 100% silicone and insulates wheel from hot and cold.
